

REVIEW BY PHD VERA STOJCHEVSKA ANTIKJ  
– “DICTIONARY OF INTERNATIONALISMS USED IN THE  
WORK “ON THE MACEDONIAN MATTERS” BY KRSTE  
MISIRKOV“ BY PHD DIMKA MITEVA

In the last ten years, PhD Dimka Miteva has been studiously working on studying the language of Misirkov from several aspects: lexical, phraseological and similar. She has also compiled and written an Interpretive dictionary about the lexical fund of the work “On the Macedonian Matters“ (not published).

In this proposed work, the author deals with studying the international vocabulary in the work “On the Macedonian Matters“ and she came to the conclusion that its number is relatively big.

The work was done in line with the contemporary principles in lexicology and deserves to be electronically published. It consists of more than 300 pages, unformatted, and has a short Preface.

Taking into consideration the fact that this is a serious work, I propose that it is electronically published on the author’s webpage ([dimkamiteva.mk](http://dimkamiteva.mk)).
